THE BUSINESS AND ECONOMIC Research (BER)

FBD is the responsible for the BER with guidance and assistance of the Scientific Research Department.

FBD focuses on the innovation and genuineness in UCAS research.

The Finance and Business Department (FBD)

VISION:

- Excellence in performance of scientific research and community service through providing distinguished community outreach programs and research.

MISSION:

- Seek to provide specializations and distinct programs in business and economic fields that contribute to the development of society through education, research and advisory services.

GOALS:

- to enhance the quality and diversity of the programs in accordance with international academic standards.
- to advance the scientific research directed to serve the local and international community.
- To strengthen community services in cooperation with all sectors and institutions of the local Arab community.
- To develop the academic staff and the learning environment to provide better services for students and the community.

The Scientific Research Department (SRD)

VISION:

Prominent the local and international researchers with applied research projects in high-impact factor journals.

MISSION:

- seek to promote (the culture and the practice) of (the scientific research and applied projects) at (UCAS and the community) by supporting and adopting serious scientific research and applied projects taking into account the originality, innovation and keeping up with the all-new.

GOALS:

- Promoting the culture of the scientific research.
- Improving the infrastructure of the scientific research.
- Promoting and increasing the support for scientific research.
- Activating the mechanisms of partnership and networking with the NGOs and international associations.

The Surveys and Studies Unit (SSU)

VISION:

SSU seeks to be the pioneer in the field of surveying thorough targeting the most qualified researchers and following up the scientific development.

MISSION:

Serving the UCAS and the society through conduction the scientific researches.

GOALS:

- Arrange surveys that is important to UCAS, and to the local society.
- Conducting studies provide the researchers with the required information.
- Providing Consultancy and statistics services to the administrative and academic units and departments at UCAS.

University Approach in managing the *Business & Economic Research.*

- UCAS provides the local community with many services beside its main role as an academic institution such as:
- Research Projects
- Community Development and Capacity Building
- Career Guidance... etc
